Log Landing

Challenges

- Not cleared on demarcation
- Inventory data
- Logged in outside approval area
- The tree species mostly are not economic species and low market
- Short log (L= 1 - 3 m) on D= 13-29 cm could not sale
- The demand of market is D> 40 cm

Next step

1. Organize the committee meeting for timber logging management and improve logging in the end of 1/2018.
2. Conversion area demarcation start 1-2/2018 (Supported by ProFLEGT).
3. Logging on contract and approval on 1-2/2018.
4. Draft the set up the technical staffs for timber logging for monitoring and management, demarcation and timber measuring at LL 2.

Thank you.....
